DETAILED ACTION

Allowable Subject Matter

1. Claims 1-19, 34 and 37-42 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The reference (s) of record do not teach or suggest, either singularly or in combination at least the limitation of the "first and second heat radiating films are disposed at different distances from the substrate" for claims 1, 2 and 37.

The closest prior art (U.S. Patent NO. 6,114,763 to Smith) shows in figure 2A the first and second heat radiating films 12 but these first and second heat radiating films are disposed at the *same distance* from the substrate. It appears that there is no desire or motivation to modify these first and second heat radiating films 12 to make the first and second heat radiating films disposed at different distance from the substrate. Furthermore, the newly cited reference (U.S. Patent No. 6,703,704 to Alcoe et al.) shows in figure 1 the first radiating film 15(stiffeners 15 can function as "heat radiating films" because they are formed of metal) and the second radiating film 28 are disposed at different distance from the substrate 20, but the second heat radiating film 28 extends beyond the periphery of the second surface of the device 10. Claims 1, 2 and 37 require that the second radiating film not extend beyond the periphery of the second surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
